

Canine Health Bytes Webinar

The AKC Canine Health Foundation and VetVine have teamed up to offer a series of webinars featuring leaders in the field of veterinary health research that offer practical advice on common health concerns as well as information on cutting-edge research to benefit all dogs. The latest webinar in this series provides an overview of pyometra in the bitch.

Register for this informative webinar [here](#).

Speaker: Karen Von Dollen, MS, DVM, DACT

Topic: Management & Antibiotic Considerations in Canine Pyometra

In this presentation veterinary reproduction specialist Dr. Karen Von Dollen will provide an overview of pyometra in the bitch, as well as discuss recent research that is helping us to better understand the disease and management strategies. Medical management, including appropriate case selection, will be highlighted. It is the intent for the audience to learn how to diagnose and approach canine pyometra, gain an understanding for the behavior of bacteria in the uterus, and principles underlying medical management.
